“ So many memories flooding my brain!

I wish you would have gotten your tattoo!

Thank you for bar hopping with me after my mom died at 52! I'm not sure how many would understand how important you were, but my mom died when I was 26 and you were there for me on the day we said goodbye! I can never thank you enough!

You and Carrie Anderson were the cousins that I always begged to have sleep overs with! You were the first friends that I snuck out with! That was an experience! I'll never forget it. Thank you. Lol

I looked forward to every family get together, just to see you and Carrie, because you were always there! I was so excited when you guys, FINALLY, moved to Kearney! You were so close!

I can't believe you're gone! I will miss you so much! I also know that you would hate all this attention. I just don't know what to do. You will be loved for as long as I am here!

“ She was a good kind hearted friend to every one and to me the first time i met her. I can remember what she said to me and it has stuck with me since that day. She said that i was down to earth , friendly, easy to get along with and not judgemental. She liked that and i liked her being honest with me. We had good times together. I took her to the mongolian grill in lincoln. The look on her face was priceless when we sat and got our ffood. She is an amazing lady and will forever be missed and she loved her family very much. We will get to go to the treasures we seen when we meet again. We will go i promise you. Love kristi.

“ I can say that as Lauri's older brother, I am devastated by my sisters passing. I remember when we were kids, there was some time when we were best friends. What I will never forget is the love she had for the life of other "things" meaning bugs and animals. This was sometimes a pain as I would have to bury a dead bug or put a fallen baby bird back up in its nest but it was all good. Even to this day, there is one particular beetle I only know as "nice bug" because that is what she always called them. She also hated it if animals would have to suffer and did everything she could to stop it. Just this last Christmas, they had hit a coyote leaving my house in the country and she called and made me promise that I would go check and make sure that it was dead or alive and not suffering. I miss those days and I am going to miss her. I have many regrets but the biggest one is the distance that grew between us over the years because we get too busy with our own lives and work and what not. There is nothing more important than family and those relationships should remain intact and positive throughout. I feel that I lost track of those values for a while and I encourage others to not let that happen to them. Call your brothers and sisters and ask them how they are doing! Set aside any differences you might have and keep them close! Lauri had a huge heart and I am going miss her so.

But what I loved the most was her love for her son she was a great mom . She will be forever missed by my family as I'm sure by everyone she loved . Her free fun and loving spirit will be so missed.
