“ I am so sorry to hear about Britney, she was taken way too soon. Although I only met her a couple times, I could tell she was definitely one of a kind. She had a very big heart and was a dear friend and classmate of my nephew. Praying that you are able to find reason and comfort without her here and that time will ease your pain. I know God has her wrapped up in his arms.

“ I was friends with Britney since 7th grade and we had an instant connection when we first met. The way we met was very strange but it was very unique. I have been friends with her and her family since then and had great connections and I can only imagine how they feel now. I had drifted from her recently and I wish I hadn't. She was such a great friend and was there for me through so much. I wish I could've talked to her more before this happened but there's nothing more to do now then live and hope she's smiling wherever she is now.

“ I was in 4H with Britney and her older sister, I always remember her being a friend to everyone. She always had a smile on her face while walking through the halls at Kearney high and was always a welcoming person. I was excited to see what shoes she'd be wearing during study hall my junior year. Rest easy honey. We were lucky to have you!

“ *I was Britney's orchestra section leader her freshman year(my junior year) and she was one of the few people at Kearney high that had a true personality. I absolutely loved teaching her and she made our class so much brighter. There was one time in class when she was wearing her clear platforms filled with plastic babies and she took them off and used them like maracas. The whole room was doubled over laughing. She will be missed by many, including myself. Much love ❤️*
