“ *I just wanted to send my condolences on Colleen's death. I hadn't seen her in awhile but we used to talk about her dancing and the joy she received from it. We both experience disabling conditions so had common ground that let us talk easily. As a woman with a severe medical problem she still remained interested in life (unrelated to the MS) and would talk about her son, friends, life, etc. with such love and humor. She fought the disease very hard and I admired her strength and determination while in awe of her ability to still enjoy the small things in life, such as getting a warm coat from a friend or her new jeans that fit! Colleen, I am happy that you no longer deal with pain or loss of self, and I pray that you have found peace and serenity.*

“ Colleen was a wonderful woman. My aunt, teacher and friend. I remember all the girl's nights she had with me when I was younger and all the spirit she had. She was so full of life. Especially when she danced. She really was beautiful inside and out.

Starting my senior year, I saw this beautiful visage and thought, "Who is this angel whom has graced KHS with her presence?" During that year, she charmed herself into the hearts of so many as she was part of our Drill Team and I could not help but develop a small crush because of her sweetness. It was then at Dryden Park that I saw her again, turning somersaults and dancing barefoot in the grass. Who could not love a person such as Colleen who was a friend beyond all other measure?

Colleen was a good lady that I will miss dearly. We grew up as neighbors and I remember going over to her house hanging out with her and her and all the neighborhood kids coming over to my garage to put a play on for our parents on a yearly basis. I will think of these fun times we had together. My heart breaks knowing everyday that another good friend of mine is gone.
