“ *My thoughts and prayers are with your family. I feel so fortunate to have known Dallas. Although we didn't spend very much time together, the time we did have was always so special. As I reflect on our memories together I realize he played many important roles in my life. He was like a brother, father and friend to me. He has been a great inspiration to me and my family. A smile comes to my face each time I think of him. I'm also glad I was able to witness the overwhelming love he has for Ginger. What great examples both Dallas and Ginger have been. May your family have peace and lots of smiles as you reflect on the unique and very special individual Dallas was in this life. When my son, Dallas, was young he started going by the nickname of Sallad for a short time because he figured out that was Dallas spelled backwards. When I heard that it brought back memories of Mayo Clinic when his name sake Dallas spiced up checking into appointments by saying his name was Yrag Sallad. That made the girls stop and think but they always figured out who he was really Dallas Gary. I have the sweetest memories from our time at Mayo Clinic. Dallas's life was hard and not many people could have endured what he did but he always had a smile and a great personality he shared with all.*
