“ This is a special memory from the Mike Coe family. About 40 years after taking Biology, Embryology and Genetics from Dr Lund and teaching Crete High School Biology Doug and I were having donuts in Kearney and our discussion lead to how he and Dr Pickens used to referee high school football games. This led to him commenting that at one game down south a safety, in making a tackle, knocked him to the ground! I had that happen to me as I was the safety playing at Orleans High School! Our conclusion was that we “met” a year earlier than we thought!

“ Dave and I are saddened by the passing of your dad. Your parents were among the first Members of FLC to reach out to welcome us to church and to coffee. We miss them and their kind ways very much.

“ I have fond memories of Dr. Lund as an instructor of Genetics and Embryology during fall 1964, spring 1965. I well remember being in aw of his ability in Embrryology to draw, in detail, stages of embryo development returning to lecture two days later, pick up a piece of chalk and begin dwawing exactly where he ended. I am extremely proud as a graduate, MS, from the Biology dept. at Kearney. As one of my favorite instructors I am saddened by his passing. Vernon L. Wranosky. 705 N Brady St. Abilene, KS 67410
